THE 2<sup>ND</sup> INTERNATIONAL VIRTUAL INTERDISCIPLINARY  
CONFERENCE ON:

**EVALUATING THE**

**Economic, Social, & Environmental**

**impacts of of the waste recycling process**

**in light of seeking to apply the concepts & dimensions of sustainable development**

**With the participation of university formative research projects**

**that related to the topic:**

EVALUATING THE ECONOMIC, SOCIAL AND ENVIRONMENTAL IMPACTS OF APPLYING THE CIRCULAR ECONOMY UNDER THE QUEST FOR THE APPLICATION OF SUSTAINABLE DEVELOPMENT CONCEPTS AND DIMENSIONS: A FIELD STUDY AT THE CITY OF SETIF

FO2N01UN190120190003

ALTERNATIVES DIVERSIFICATION IN THE ALGERIAN ECONOMY: PERSPECTIVES 2030

FO2N01IN190120180002

FEBRURAY, 27<sup>th</sup> & 28<sup>th</sup>, 2021

# PREAMBLE

Industrial waste and residues make up a major problem in terms of its continuous increase and its negative effects on the Algerian environment and society, where It produces more than 2,500,000 tons of industrial waste and one million tons of household waste annually. For this purpose, firstly it was necessary to think of technologies concerned with recycling, which would be one of the

best solutions to reduce waste, take advantage and reduce the consumption of natural resources that we share with future generations within the framework of applying the principles of sustainable development, Secondly, changing the flat economy model based on extraction-consumption, throwing the economy of renewal and recovery in order to preserve the environment and its resources, then provide the

requirements for sustainable development. The circular economy presented as a new economic model that takes into account the environment and its requirements, It works to mitigate the negative environmental impacts of waste, moreover it will save the world more than a trillion dollars by 2025 according to some studies, increases the competitiveness of industries and creates jobs. Instead.

The circular economy concerned as a model concerned with changing all unsustainable production and consumption patterns through its interest in every detail of the life of the product or what we have termed "product from cradle to grave", In order to preserve the value of products, materials and resources in the economy as long as possible, in addition to modernizing the economic system and

creating sustainable job opportunities as it will contribute to creating more than one hundred thousand jobs in the next five years.

Proceeding from the above, the main problematic of the international conference revolves around the following question:

**What are the economic, social and environmental impacts of the waste recycling process?**

**& What is the role of the circular economy in embodying the principles of sustainable development?**

## CONFERENCE AXIS

### THE ECONOMIC AXIS ●

1. Startup companies in a circular economy;
2. The role of the circular economy in local development;
3. Waste material management at the local level;
4. Integration of circular economy principles and mechanisms into economic companies.

### THE SOCIAL AXIS ●

1. Mechanisms for civil society integration of waste management;
2. Ways to change the behavior of individuals to sort waste locally;
3. Review field experiences of civil society contributions.

### THE ENVIRONMENTAL AXIS ●

1. Evaluating research and development mechanisms in the field of the circular economy;
2. Linking the university with the socio-economic environment in the field of circular economy;
3. Review available technologies for waste treatment and valuation;
4. Development of new indicators for the circular economy.

### SPECIAL AXIS: CIRCULAR ECONOMY FROM AN ISLAMIC ECONOMY PERSPECTIVE ●

1. The role of Islamic law objectives in preserving the environment;
2. The role of legitimate policy in promoting recycling;
3. The role of recycling in rationalizing consumption.

## CONFERENCE OBJECTIVES

1. Highlight on mechanisms for integrating the principles of the circular economy into economic companies;
2. Making researches about some mechanisms driving the integration of civil society into local and national administration;
3. Make use of field trials for the contribution of civil society in the recycling of waste;
4. Creating a bridge between the university and the socio-economic environment in the field of circular economy;
5. Valuing the circular economy research and development studies by embodying it, locally and nationally;
6. Highlighting the technical developments currently used for waste recycling and valuing it locally and nationally;
7. Shedding light on the Islamic economy's approach to the circular economy and environmental issues.

## SUBMISSION CONDITIONS TO THE PARTICIPANTS

1. The paper should be in one of the forum's axes, characterized by seriousness in proposition and scientific originality, exact methodology, and the integrated cited list of appendices and references using the APA method;
2. The paper has not been published in any journal or presented in another scientific meeting ;

3. Papers in Arabic: Written in Traditional Arabic script, size 14, and headings are bold font, size 14. Papers in foreign languages: Written in Times New Roman, size 12, and headings are bold font, size 13. Margins: 2 cm for each side. Space between lines: 1 cm;
4. references and appendices should be at the end of the paper;
5. Papers should not exceed 6 pages, including references and appendices;.
6. The first page of the paper must contain all the information about the author: full name, academic rank, university or institution working in it, e-mail, phone, paper's title, the axis of participation, and the abstract in a language other than the language of the paper;
7. After accepting the papers, the author should shoot a video with a duration not exceeding 10 minutes in which he presents his paper, then uploads it to YouTube with a special link (not public for everyone) that he sends to the e-mail of the conference.

### **CONFERENCE HONORARY CHAIRMAN**

Professor: Abdelkrim BENIAICHE

President of: Ferhat ABBAS University of Setif

### **CONFERENCE CHAIRMAN**

Professor: Lila GUETTAF

HEAD OF : THE LABORATORY OF STUDIES, ECONOMIC & MARKETING RESEARCH

### **CONFERENCE CO-CHAIRMAN**

Dr. Adel ZIET

## HEAD OF THE SCIENTIFIC COMMITTEE

Dr. Charaf Eddine Amine BENAOUAG
